

The new year is just around the corner and I, like many of you, look forward to putting the last two years behind us. We need less COVID-19 and many more research supporting dollars to help end Parkinson's Disease.

More than one million people in the United States are living with PD. Additionally, 60,000 new cases are diagnosed each year, 12,000 in Alabama alone. Unfortunately, between patients, caregivers, and loved ones, millions of people can struggle to find information, support, and the hope for a cure that they so desperately need.

You can help them all enter 2022 with a renewed sense of security and purpose by supporting the Parkinson Association of Alabama today! Imagine what we could accomplish with increased funding and resources dedicated to a cure. PAA is a nonprofit organization founded in 1978 committed to assisting those living with PD, their families, and caregivers. Care, Community, Cure. It's what we do!

Alabama is fortunate to have 1 of only 8 Advanced Centers for Parkinson's Research in the U.S. located at The University of Alabama at Birmingham. PAA continuously provides critical financial support to fund research designed to slow or halt the progression of the disease and find a cure. Our donations to date at UAB are approaching \$3 million, leveraged into more than \$12 million. Still, more funding is the key to unlock a cure.

We understand that your time is valuable, and we have made your tax-deductible contribution to the PAA quite simple to complete. You may fill out the attached form or you can give online at

<https://donorbox.org/parkinsonassociation-of-alabama-2>.

I ask that you support our statewide efforts by making your personal or corporate donation today. Not only will your generosity help provide support to those affected by PD, but it will also have an everlasting impact on the lives of patients in Alabama. On behalf of the PAA, and as a patient myself, I thank you. You are the difference that makes a difference.

Best regards,

Brian Corbett
